SUBJECT: CONTROL OF NON-DESTRUCTIVE TESTING

Dear Mr Workman

Mr James Draper is hereby approved by Rolls-Royce to control NDT within your facility in accordance with the requirements of RRP 58000. This approval covers Magnetic Particle Inspection per RRP58004.

This approval applies to all Rolls-Royce production organization approval holders (POAH) for which Kaydon Bearings Division Plant 1 holds a specific certificate of approval for, i.e. Rolls-Royce Corporation, Rolls-Royce plc, Rolls-Royce Deutschland etc. and is subject to the following:

1. Mr Draper's external Level 3 qualification administered in accordance with NAS410 must be maintained by re-certification at least every five years.
2. Mr Draper is formally appointed as your company NDT Level 3 and his responsibilities are clearly defined within your company quality documentation.

This approval may be withdrawn whenever the responsibility for Control of Non Destructive Testing on Rolls-Royce product is found to be unfulfilled.

If the above Level 3 position is vacated, you shall notify Rolls-Royce Materials, Laboratory and Engineering at Rolls-Royce Corporation immediately and nominate a qualified replacement within twenty (20) days in order to maintain your facility NDT approval.

Regards,
ROLLS-ROYCE

Randy Miller
NDT Engineer Level 3
